

Awards

CBLH Design has been recognized throughout the years for our efforts in design throughout northern Ohio. We have been the recipients of American Institute of Architects Cleveland Chapter Design Awards for various projects. CBLH Design and its team have also been published in national trade magazines and local newspapers for our work. These areas of recognition support the fact that we strive to provide clients with appropriate design solutions that have a lasting impact on the community that is served.

A few examples of awards and recognition CBLH Design has received are:
